

YUSEF FAZEA

Marshall University
College of Engineering and Computer Sciences
Department of Computer Science
1 John Marshall Dr., Huntington, WV, 25755
304-696-7263 | yusef.fazea@marshall.edu
<https://www.marshall.edu/cccs/profile/dr-yusef-fazea/>

Education

- Ph.D., Computer Science, University Utara Malaysia, Malaysia (2017)
- M.Sc., Information Technology, University Utara Malaysia, Malaysia (2012)
- B.S., Information Technology (Networking), University Utara Malaysia, Malaysia (2011)

Experience

- Assistant Professor, Department of Computer Science
Marshall University, USA | *August 2023 - Present*
- Assistant Professor, Department of Computer & Information Technology
Marshall University, USA | *August 2021 – August 2023*
- Assistant Professor, School of Computing
University Utara Malaysia, Malaysia | *January 2018 – May 2021*

Publications, Scholarly Output & Funding

- 90+ peer-reviewed publications (journals, conferences, book chapters)
- 1,500+ total citations; h-index 19, i10-index 40
- 30+ publications since joining Marshall University (2021–2025)
- Publications in IEEE Xplore, Springer, and Scopus/Web of Science-indexed journals (selected Q1–Q2 venues)
- \$1.89M+ in competitively funded research (PI/Co-PI), plus RM 30,000 in international grants

Fellowships and Awards

- Best Paper Award (Springer IRICT), 2023
- Best Paper Award (IEEE ICCIS), 2020
- Best Paper Award (IEEE ISCAIE), 2017
- Marshall University Summer Research Award, 2022 & 2023

Student Research Mentorship

- Advised 2 Ph.D. students (international collaboration)
- Mentored 34 undergraduate and graduate students in research

- Guided student outcomes, including IEEE/Springer publications, conference papers, and posters
- Served as corresponding author/faculty mentor on multiple student-led publications

Editorial & Professional Service

- Editorial roles: 6+ journals/special issues (Editor/Associate Editor/Guest Editor)
- Professional membership: IEEE (Senior Member); additional memberships in ISOC and related professional groups
- Regular reviewer for IEEE, Springer, and indexed journals/conferences

Research Focus & Application Areas

- AI-enabled infrastructure monitoring and decision support
- Low-cost sensing systems for transportation and smart infrastructure
- Data-driven resilience of rural and underserved systems
- Internet of Things (IoT) and mobile sensing applications
- Secure and scalable communication systems
